Beyond the crises: Zimbabwe's prospects for

transformation Murisa, Tendai 2015-12-01 Over the past years, few African countries have been the focus of discussions and analyses generating a vast array of literature as much as Zimbabwe. The socioeconomic and political crises since the turn of the century have deeply transformed the country from the ideals of a vibrant freshly independent nation just two decades earlier. These transformations have necessitated the call for the restructuring of Zimbabwean society, polity, and economy. But this literature remains exclusively within the realm of academic thinking and theorising, with no concerted effort to move beyond this by explicitly drawing out the policy implications. Beyond the Crises: Zimbabwe's Prospects for Transformation is a welcome addition to the academic and policy literature with a much broader and all-embracing focus in terms of policy interventions. By focusing on different aspects of social and economic justice, Murisa and Chikweche go beyond initiating a broad discussion on these two key pillars of human development with a view to suggesting possible future directions of practical solutions and

policy development for the attainment of inclusive social and economic justice for Zimbabweans.

Development of Education Zimbabwe. Ministry of Higher Education 1996

Some Developments in Research in Science and Mathematics in Sub-Saharan Africa Lorna Holtman 2008 Much attention in late-developing countries is given to providing access to studies which allow school leavers to enter science and technology-related careers. This book reviews research related to the crucial dimension of epistemological access to the disciplines of import, which students need as much as institutional access in order to improve their chances of success. A significant feature of this collection's research studies is that their empirical bases are highly localised, covering areas such as research methods, access, curriculum, instruction and assessment, and the relevance of science and mathematics education in Zimbabwe, Uganda, Swaziland, South Africa, Namibia, Malawi, Ghana and Lesotho. It is the outcome of a doctoral research capacity-development project, the Graduate Studies in Science, Mathematics and Technology Education (GRASSMATE).

Education and Development in Zimbabwe Edward Shizha 2012-01-01 The book represents a contribution to policy formulation and design in an increasingly knowledge economy in Zimbabwe. It challenges scholars to think about the role of education, its funding and the egalitarian approach to widening access to education. The nexus between education, democracy and policy change is a complex one. The book provides an illuminating account of the constantly evolving notions of national identity, language and citizenship from the Zimbabwean experience. The book discusses educational successes and challenges by examining the ideological effects of social, political and economic considerations on Zimbabwe's colonial and postcolonial education. Currently, literature on current educational challenges in Zimbabwe is lacking and there is very little published material on these ideological effects on educational development in Zimbabwe. This book is likely to be

one of the first on the impact of social, political and economic meltdown on education. The book is targeted at local and international academics and scholars of history of education and comparative education, scholars of international education and development, undergraduate and graduate students, and professors who are interested in educational development in Africa, particularly Zimbabwe. Notwithstanding, the book is a valuable resource to policy makers, educational administrators and researchers and the wider community. Shizha and Kariwo's book is an important and illuminating addition on the effects of social, political and economic trajectories on education and development in Zimbabwe. It critically analyses the crucial specifics of the Zimbabwean situation by providing an in depth discourse on education at this historical juncture. The book offers new insights that may be useful for an understanding of not only the Zimbabwean case, but also education in other African countries. Rosemary Gordon, Senior Lecturer in Educational Foundations, University of Zimbabwe Ranging in temporal scope from the colonial era and its elitist legacy through the golden era of populist, universal elementary education to the disarray of contemporary socioeconomic crisis; covering elementary through higher education and touching thematically on everything from the pernicious effects of social adjustment programmes through the local deprofessionalization of teaching, this text provides a comprehensive, wide ranging and yet carefully detailed account of education in Zimbabwe. This engagingly written portrayal will prove illuminating not only to readers interested in Zimbabwe's education specifically but more widely to all who are interested in how the sociopolitical shapes education- how ideology, policy, international pressures, economic factors and shifts in values collectively forge the historical and contemporary character of a country's education. Heimkehr in ein fremdes Land Chinua Achebe 2015-09-24

Chinua Achebe - der zweite Band seiner »Afrikanischen Trilogie« ›Heimkehr in ein fremdes Land‹ folgt auf ›Alles zerfällt‹ und bildet den zweiten Band der »Afrikanischen Trilogie«. - Obi Okwonkwo, der Enkel des Helden aus ›Alles zerfällt‹, verlässt sein Dorf mit Unterstützung aller, um, britisch erzogen, einmal als Politiker für sie einzustehen. Doch er enttäuscht alle. Achebes Roman über ein Leben, das nicht gelingen kann. »Da war ein Autor mit dem Namen Chinua Achebe, in dessen Gesellschaft die Gefängnismauern einstürzten.« Nelson Mandela über die Bücher, die er im Gefängnis gelesen hatte

International Handbook of Leadership for Learning Tony Townsend 2011-07-10 The International Handbook of Leadership for Learning brings together chapters by distinguished authors from thirty-one countries in nine different regions of the world. The handbook contains nine sections that provide regional overviews; a consideration of theoretical and contextual aspects; system and policy approaches that promote leadership for learning with a focus on educating school leaders for learning and the role of the leader in supporting learning. It also considers the challenge of educating current leaders for this new perspective, and how leaders themselves can develop leadership for learning in others and in their organisations, especially in diverse contexts and situations. The final chapter considers what we now know about leadership for learning and looks at ways this might be further improved in the future. The book provides the reader with an understanding of the rich contextual nature of learning in schools and the role of school leaders and leadership development in promoting this. It concludes that the preposition 'for' between the two readily known and understood terms of 'leadership' and 'learning' changes everything as it foregrounds learning and complexifies, rather than simplifies, what that word may mean. Whereas common terms such as 'instructional leadership' reduce learning to 'outcomes', leadership for learning embraces a much wider, developmental view of learning.

Global Perspectives on Teacher Performance Improvement Al-Mahdi, Osama 2022-02-04 In-service teacher professional development is central to most empirical conceptions of educational quality. As the techniques and strategies for educational reform have spread rapidly throughout the world, teacher professional development practices have been borrowed across borders. It is important to study the global sharing of information on teacher professional development. Global Perspectives on Teacher Performance Improvement examines the implementation of proven, high quality teacher professional development practices in unique environments around the world. It further explains the power of a globally connected community of teacher quality improvement. Covering topics such as mentoring programs, education technology, and education workforce, this book is an essential resource for educational administration and faculty, pre-service teachers, the public education sector, government officials, educators of both K-12 and higher education, researchers, and academicians.

Krafttraining - Die Enzyklopädie Jim Stoppani 2016-02-18 Dieses auf wissenschaftlichen Grundlagen basierende Handbuch ist der umfassende Trainingsratgeber zur Maximierung von Muskelmasse und Kraft. Es behandelt alle Aspekte der optimalen Kraftentwicklung und des Muskelaufbaus, erklärt wichtige Begrifflichkeiten und Konzepte, bespricht alle einsetzbaren Trainingsgeräte, darunter auch Kettlebells, TRX oder BOSU, erläutert die Bedeutung jeder Muskelgruppe und zeigt Ernährungsstrategien auf, die den Fettabbau und Muskelaufbau effizient unterstützen. Die 381 in Bild und Text erklärten Übungen decken 13 Muskelgruppen und den ganzen Körper ab. Perspectives in Curriculum Studies A Zama 2021-08-19
Perspectives in Curriculum Studies by Margaret Nalova Endeley and Martha Ashuntantang Zama is a comprehensive textbook for graduate students of Curriculum Studies and Instruction, and a guide for education practitioners wherein they articulate

contemporary curriculum concepts, principles and applications in the field. With illustrations from informed African perspectives, the authors situate curriculum theory and practice in local contexts so that African scholars, educators, and others may be equipped with knowledge and skills to develop and maintain appropriate and relevant curricula for quality education. Framed in sixteen chapters, grouped in five parts, the text begins with the exposition of basic terminology, curriculum theory and foundations of the curriculum before delving profoundly into the curriculum development process. The latter portion gives the reader the opportunity to explore, analyse and evaluate different curriculum planning approaches and models, curriculum design dimensions and patterns, and procedures for the development of syllabuses, textbooks, and other curriculum materials. Also, Curriculum implementation tasks as well as strategies for evaluation of programs and courses are presented and discussed. Since curriculum and instruction are highly intertwined notions, instructional design is elaborately treated in two chapters bringing out its theoretical underpinnings and procedures. The book closes with global perspectives of curriculum development in practice. The goal here is to provide insights into trends, issues, and challenges not only in curriculum development but also in the curriculum field, which should generate action towards the improvement of curriculum practice and spur the search for new knowledge.

Education in Southern Africa Clive Harber 2013-09-12
Education in Southern Africa is a comprehensive critical reference guide to education in the region. With chapters written by an international team of leading regional education experts, the book explores the education systems of each country in the region. With chapters covering Botswana, Lesotho, Madagascar, Mozambique, Namibia, South Africa, Swaziland and Zimbabwe, the book critically examines the development of education provision in each country as well as local and global contexts.

Including a comparative introduction to the issues facing education in the region as a whole and guides to available online datasets, this handbook will be an essential reference for researchers, scholars, international agencies and policy-makers at all levels.

Das kleine Buch der Stringtheorie Steven S. Gubser 2011-08-26 Das kleine Buch der Stringtheorie bietet eine knappe und unterhaltsame Einführung in eines der meistdiskutierten Gebiete der modernen Physik. Die Stringtheorie gilt als eine „Theorie für Alles“, mit der sich sämtliche Grundkräfte der Natur beschreiben lassen. Bisher allerdings konnte sie experimentell nicht bestätigt werden, und unter Physikern wird sie sehr kontrovers diskutiert. Dieses Buch gibt Ihnen die Gelegenheit, sich ein eigenes Bild zu machen!

Investigating the Impact of Information Communication

Technology on Self-directed Professional Development of

Teachers Emmanuel Mushayikwa 2011-03-02 The aim of this research was to investigate the perceived impact of ICT on Zimbabwean A-level science and mathematics teachers' self-directed professional development. The study was based on a questionnaire survey of 254 teachers throughout the country. Supplementary data came from 54 interviews. Some observations of teachers using ICT in teacher-centres, e-mail correspondence, and field reports also contributed to the database of the study. An analysis framework was developed through the use of grounded theory on the interview transcripts. The framework yielded 9 themes relating to the teachers' use of ICT for their professional development. These were: (1) perceived professional identity; (2) career development; (3) Managing the ICT environment; (4) theoretical and content knowledge; (5) practical knowledge and

skills; (6) adaptation; (7) professional networking and; (8-9) perceived benefits to teachers and students. Chaos (complexity) theory was used to identify the major attractors (goals) for teachers' self-directed professional development using ICT. Two attractors were identified. These were personal professional development and classroom practice. However, an over-riding factor common to both attractors was identified as self-efficacy. The study identified the over-arching driver for self-directed professional development as the teacher's need to improve their self-efficacy. A two dimensional model of self-directed professional development was suggested. The systemic element of the model focused on the self-correcting impact of ICT use on professional development, whilst the personal element focused on self-efficacy as the central stratum for self-directed professional development. The study concluded by acknowledging the potent role that ICT is playing in the self-directed continuing professional development of teachers in Zimbabwe, and recommended, among other things, the inclusion of A-level teachers in the development of localised online materials resources for their subjects. This will help to enhance relevance of the materials to the Zimbabwean context

The World of Science Education Femi S. Otulaja 2017-09-12 Each volume in the 7-volume series The World of Science Education reviews research in a key region of the world. These regions include North America, South and Latin America, Asia, Australia and New Zealand, Europe and Israel, North Africa and the Middle East, and Sub-Saharan Africa. The focus of this Handbook is on research in science education in mostly former British colonies in Sub-Saharan Africa and the scholarship that most closely support this program. The reviews of the research situate what has been accomplished within a given field in Sub-Saharan Africa rather than an international context. The purpose therefore is to articulate and exhibit regional networks and trends that produced specific forms of science education. The thrust lies

in identifying the roots of research programs and sketching trajectories - focusing the changing façade of problems and solutions within regional contexts. The approach allows readers to review what has been done and accomplished, what is missing and what might be done next.

Code-Switching as a Pedagogical Tool in Bilingual Classrooms Miriam Chitiga 2021-11-30 Presenting a mixed methods study conducted in a bilingual mathematics classroom in Zimbabwe, this text reveals the semantic pedagogical functions and linguistic forms of code-switching during STEM instruction. Code-Switching as a Pedagogical Tool in Bilingual Classrooms offers a detailed analysis of code-switching in the context of educational linguistics, and reveals ten major pedagogical techniques which illustrate how teachers use code-switches to engage students and provide guidance, clarification, discipline, and recaps during individual and whole-class interactions. Chapters highlight that code-switching can be used in a targeted manner to harness the cognitive potential of bilingual speakers and enhance instruction. Ultimately, the text identifies implications for teacher education, language policy, and educational leadership more broadly, and demonstrates intersections with key areas including functional, critical, and cultural literacy. This text will benefit researchers, academics, and educators with an interest in bilingualism, applied linguistics, and secondary education more broadly. Those specifically interested in multicultural education, sociolinguistics and educational policy will also benefit from this book.

Pohls Einführung in die Physik Robert Wichard Pohl 2005-09 Der "Pohl," jahrzehntelang das klassische Lehrbuch der Experimentalphysik, erscheint hier in einer überarbeiteten und mit Kommentaren und Videos ausgestatteten neuen Auflage. Der vorliegende zweite Band enthält die Elektrizitätslehre und die Optik. Die klare und einprägsame, stets vom Experiment

ausgehende Darstellung der physikalischen Grundlagen hat bis heute nichts von ihrer Frische und Aktualität eingebüßt. Trotz des moderaten Umfangs geht der Text in vielen Kapiteln weit über das hinaus, was selbst von Physikern im Grundstudium erwartet wird, z.B. bei der ausführlichen Behandlung der klassischen Optik, die in keinem anderen Experimentalphysik-Lehrbuch so gut verständlich und intensiv dargestellt wird. Die Bücher wenden sich an Studierende ebenso wie an Dozenten und Lehrer sowie "weitere physikalisch interessierte Kreise." Der Leser wird viele der auch heute in Anfangsvorlesungen vorgeführten Demonstrationsexperimente im Detail beschrieben wiederfinden. Die für den "Pohl" so charakteristischen Schattenrisse besitzen trotz moderner Lichttechnik und Videokameras nach wie vor sowohl für den Buchdruck als auch im Horsaal entscheidende Vorteile. Der von Pohl zuweilen beklagte Schwierigkeit, zeitliche Bewegungsabläufe auch im Buch zu zeigen, wurde jetzt mit Videos begegnet. So bedeuten die neu hinzugefügten mehr als 20 Videos eine ganz wesentliche Ergänzung der

Experimentdarstellung und machen manche Abbildung "lebendig." Sie wurden durchweg an historischem Ort im Gottinger Horsaal unter Verwendung von Originalapparaturen gedreht und sind dem Buch als DVD beigelegt.

Validating Technological Innovation David Coniam 2016-04-02
This book discusses Hong Kong's use of onscreen marking (OSM) in public examinations. Given that Hong Kong leads the way in OSM innovation, this book has arisen from a recognised need to provide a comprehensive, coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong. The authors discuss their experience of the validation process, demonstrating how high-stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders.
