**The Media Student's Guide to Radio Production** Bob Gilmurray 2017-08-27 This book is written for students enrolled on media production courses in further and higher education which include modules in radio broadcasting. It is particularly well suited to students in the United Kingdom who are taking BTEC Nationals and Higher Nationals, OCR Cambridge Technicals, and similar vocational media programmes. That said, this book contains much that radio trainers and trainees outside the context of mainstream education, and even of the UK, will also find helpful. The rules and conventions may vary, but the skills required to do the job are much the same everywhere. The emphasis is upon the practical issues that arise when you, the student, are experiencing for the first time the challenge of working as a member of a team to launch and run a broadcast or internet radio station, and you are being assessed on how well you do.

*The EDCF Guide to Digital Cinema Production* Lars Svanberg 2013-06-26 A professional introduction to the end-to-end process of digital filmmaking! The EDCF Guide to Digital Cinema Production sheds light on the ongoing and confusing transition from analog to digital technology in film production. In addition to a complete analysis of technical concerns, this text deals with a number of issues where European and Hollywood priorities differ. It adds fuel to the discussion on "Photo-Chemical Fundamentalism" and the future of traditional film-based cinematography. With special emphasis on new HD production techniques for the big cinema screen, this guide is the one and only resource available from a European perspective. The EDCF Guide to Digital Cinema Production provides film professionals and decisions-makers in European cinema with an excellent basis for discussions on how to handle the transition from analog to digital technology. Look no further for: \* Several production case studies, among them Ingmar Bergman's last film "Saraband" (2003) and Lars von Trier's "Dogville" (2003). \* Surveys of HD Systems & Cameras and "The 37 MFAQ on HD Production." \* Expert reports on Audio Recording for HD and the Digital Intermediate Process. \* Detailed European initiatives in Digital Cinema. \* An up-to-date survey of the problematic standards situation for Digital Cinema. \* A comprehensive look at archiving - the "Achilles Heel" of digital production. \* The pros and cons of producing feature films digitally - a unique and professional view of "the agony and ecstasy." Editor-in-Chief Lasse Svanberg is a founding member of EDCF. He was DoP on 14 feature films 1966-81, founded TM (Technology & Man) Magazine at the Swedish Film Institute in 1968 and was its Chief Editor until 1998 He was elected Fellow of BKSTS 1979, Fellow of SMPTE 1995 and granted Professor's title by the Swedish Government 2002. He is the author of six books on the history and possible future of film, video and television. The European Digital Digital Cinema Forum (EDCF) was constituted in June 2001 as joint Swedish-British-French effort to establish a European forum for discussions, information exchange and industrial activities in the field of Digital Cinema. This project was initiated because digital production, digital distribution and digital exhibition of film is the most radical technical change facing the film industry since sound film was introduced.

**Grasshoppers of Britain and Western Europe** Éric Sardet 2021-06-10 This is the first guide to the 261 species of orthopterans - the grasshoppers, crickets and katydids - of Britain and western Europe ever published. Set out in a clear and accessible format and featuring a combination of photographs and illustrations, the book covers identification criteria of all of the main species and subspecies, with detailed photographs of males and females, distribution maps, status, habitat descriptions, oscillograms, advice on where and when to find them, and tips to avoid confusion during the often tricky process of identification. Comprehensive general chapters also cover morphology, ecology and habitat, and assist with research in the field. What makes this work the total package?

The book comes with a CD, featuring 222 orthopteran songs. Together, book and CD make this the definitive guide to these insects and a rich resource for any naturalist in the region.

**Snag Habitat Management** 1983 These proceedings include 41 papers focusing attention on the need to integrate management of snags - dead or deteriorating trees critical to needs of cavity-dependent wildlife - with other resource uses and demands. Sessions concentrated on management, habitat and species requirements, and monitoring and modeling.
