[Writing and Designing Manuals and Warnings, Fifth Edition](#) Patricia A. Robinson 2019-12-27 Technology is changing the way we do business, the way we communicate with each other, and the way we learn. This new edition is intended to help technical writers, graphic artists, engineers, and others who are charged with producing product documentation in the rapidly changing technological world. While preserving the basic guidelines for developing manuals and warnings presented in the previous edition, this new edition offers new material as well, including a much-expanded section on hazard analysis. Features Provides more explicit guidance on conducting a hazard analysis, including methods and documentation Offers in-depth discussion of digital platforms, including video, animations, and even virtual reality, to provide users with operating instructions and safety information Incorporates current research into effective cross-cultural communication—essential in today’s global economy Explains new US and international standards for warning labels and product instructions Presents expanded material on user analysis, including addressing generational differences in experience and preferred learning styles Writing and Designing Manuals and Warnings, Fifth Edition explores how emerging technologies are changing the world of product documentation from videos to virtual reality and all points in between.

[Green Building Products](#) Alex Wilson 2006 Interest in sustainable, green building practices is greater than ever. Whether concerned about allergies, energy costs, old-growth forests, or durability and long-term value, homeowners and builders are looking for ways to ensure that their homes are healthy, safe, beautiful, and efficient. In these pages are descriptions and manufacturer contact information for more than 1,400 environmentally preferable products and materials. All phases of residential construction, from sitework to flooring to renewable energy, are covered. Products are grouped by function, and each chapter begins with a discussion of key environmental considerations, and what to look for in a green product. Over 40% revised, this updated edition includes over 120 new products. Categories of products include: Sitework and landscaping Outdoor structures Decking Foundations, footers and slabs Structural systems and components Sheathing Exterior finish and trim Roofing Doors and windows Insulation Flooring and floor coverings Interior finish and trim Caulks and adhesives Paints and coatings Mechanical systems/HVAC Plumbing, electrical and lighting Appliances Furniture and furnishings Renewable energy Distributors and retailers An index of products and manufacturers makes for easy navigation. There is no more comprehensive resource for both the engaged homeowner and those who design and build homes.
