The Uses of History in Early Modern England Paulina Kewes 2006 Publisher Description

First Among Friends : George Fox and the Creation of Quakerism H. Larry Ingle Professor of History University of Tennessee-Chattanooga 1994-03-03 In First Among Friends, the first scholarly biography of George Fox (1624-91), H. Larry Ingle examines the fascinating life of the reformation leader and founding organizer of the Religious Society of Friends, more popularly known today as the Quakers. Ingle places Fox within the upheavals of the English Civil Wars, Revolution, and Restoration, showing him and his band of "rude" disciples challenging the status quo, particularly during the Cromwellian Interregnum. Unlike leaders of similar groups, Fox responded to the conservatism of the Stuart restoration by facing down challenges from internal dissidents, and leading his followers to persevere until the 1689 Act of Toleration. It was this same sense of perseverance that helped the Quakers survive--the only religious sect of the era still existing today. Firmly grounded in primary sources and enriched with gripping detail, this well-written and original study reveals hitherto unknown sides of one who was clearly "First Among Friends."

The State and the People John Manning Ward 2001 *The State and the People* tells the story of the Australian colonies' coming together into a single federation in the latter years of the 19th century. Author John Manning Ward, pre-eminent Australian interpreter of colonial relations with Great Britain, had a distinct view of Australian federation. His liberal-conservative approach differed sharply from the nationalist or modern progressivist approaches of other scholars. Between the radical republican challenge and the cultural cringe, lies Ward's Australia: essentially pro-British, pragmatic and animated by the 'hope of capital'. Ward's federation reflects pragmatic forces and developments, the constitutional outcome having the common sense of a common law tradition at its core. Federation is not the representation of a nationalist assertion against the mother country, but rather the expression of a colonial nationality anchored within a tradition of British imperial history abroad. Ward's untimely death intervened in 1990 and *The State and the People* is

incomplete. It comprises the substantial chapters then written. The editors, Professor Deryck Schreuder and Emeritus Professor Brian Fletcher, make clear that we have been deprived of quantity, not quality. Ward's scholarship remains sharp, his prose elegant and his argument penetrating. *The State and the People* contributes significantly to our understanding of Federation and to continuing debate on the Australian constitution and identity.
