Women's Experience of Modernity, 1875-1945 Ann L. Ardis 2003-05-22 A collection of essays on women's history and literary production at the turn of the twentieth century that centers the feminine phenomena. Analyzing such cultural practices as selling and shopping, political and social activism, urban field work and rural labor, radical discourses on feminine sexuality, and literary and artistic experimentation, this volume contributes to the rich vein of current feminist scholarship on the "gender of modernism" and challenges the assumption that modernism rose naturally or inevitably to the forefront of the cultural landscape at the turn of the twentieth century. During this period, "women's experience" was a rallying cry for feminists, a unifying cause that allowed women to work together to effect social change and make claims for women's rights. However, it also proved to be a source of great divisiveness among women, for claims about its universality quickly unraveled to reveal the classism, racism, and Eurocentrism of various feminist activities and organizations. The essays in this volume examine both literary and non-literary writings of Jane Addams, Djuna Barnes, Toru Dutt, Radclyffe Hall, H.D., Pauline Hopkins, Emma Dunham Kelley, Amy Levy, Alice Meynell, Bram Stoker, Ida B. Wells, Rebecca West, and others. Instead of focusing exclusively or even centrally on modernism and literature, these essays address a broad array of textual materials, from political pamphlets to gynecology textbooks, as they investigate women's responses to the rise of commodity capitalism, middle-class women's entrance into the labor force, the welfare state's invasion of the working-class home, and the intensified eroticization of racial and class differences.

**The Druid Renaissance** Philip Carr-Gomm 1996 The Druid tradition lies at the heart of Western spirituality and today it is experiencing a renaissance unprecedented in its long history. The Druids, like the Native Americans and Aborigines, revere and respect the earth. They see Nature as their teacher and mother. Today, Druidry offers a spiritual way that includes an understanding of healing, creativity and the need to place our love for the land at the centre of our lives. Drawn together in this collection are contributions from Druid Chiefs from Britain, France and America together with writers and mystics, healers and psychologists, professors and historians, which express the excitement and breadth of the modern Druid renaissance. This book is a celebration of the flowering of a tradition that is ancient yet ever-new.

Rooted Lyanda Lynn Haupt 2021-05-04 Deepen your connection to the natural world with this inspiring meditation, "a path to the place where science and spirit meet" (Robin Wall Kimmerer). In *Rooted*, cutting-edge science supports a truth that poets, artists, mystics, and earth-based cultures across the world have proclaimed over millennia: life on this planet is radically interconnected. Our bodies, thoughts, minds, and spirits are affected by the whole of nature, and they affect this whole in return. In this time of crisis, how can we best live upon our imperiled, beloved earth? Award-winning writer Lyanda Lynn Haupt's highly personal new book is a brilliant invitation to live with the earth in both simple and profound ways—from walking barefoot in the woods and reimagining our relationship with animals and trees, to examining the very language we use to describe and think about nature. She invokes rootedness as a way of being in concert with the wilderness—and wildness—that sustains humans and all of life. In the tradition of Rachel Carson, Elizabeth Kolbert, and Mary Oliver, Haupt writes with urgency and grace, reminding us that at the crossroads of science, nature, and spirit we find true hope. Each chapter provides tools for bringing our unique gifts to the fore and transforming our sense of belonging within the magic and wonder of the natural world.

**Partnering with Nature** Catriona MacGregor 2010-04-13 *Partnering with Nature* is a simple book with a powerful message: our connections to the natural environment—and ultimately, to ourselves—are crucial in today's fragmented world. As each successive generation moves farther away from nature, the growing disconnect is expressed through physical as well as mental stress, from depression and fatigue in adults to attention disorders and obesity in children. The way we relate to nature helps define our place within it, and by awakening this natural, yet dormant connection to the environment around us, we can move beyond solitary stewardship and into partnership. In *Partnering with Nature*, Catriona MacGregor weaves together scientific and historical wisdom, spiritual insights, and inspiring stories that illuminate the energies that link humans, animals, and the natural world. Through observation and conscious practice, we can open up to the power of nature to transform our lives, uplift our spirits, and even to direct our bodies to a healthier potential. For everyone who has a sense of something missing, who wishes to make a difference in their world, who yearns

to reclaim their sense of wonder and awe, or who struggles with their health or emotional balance—nature speaks to all who will listen.

Your Story Joanne Fedler 2017-07-25 We either think our lives are so special that everyone should be interested in what's happened to us, or so ordinary that we can't imagine anyone would care. The truth lies somewhere in between: yes, we are all special, and no, people will not care—unless we write with them in mind. Joanne Fedler, a beloved writing teacher and mentor, has written *Your Story* to help all people, even those who don't necessarily identify as "writers," value their life stories and write them in such a way that they transcend the personal and speak into a universal story. She shows how to write from your life, but for the benefit of others. Filled with practical wisdom and tools, this book tackles: • mind-set issues that prevent us from writing • ways to develop trust (in yourself, the process, the mystery) • triggers or prompts to elicit our own stories • Joanne's original techniques for "lifewriting," developed over a decade of teaching and mentoring • and much more "Joanne understands the writer's loneliness," says one such writer whose life she's touched, the award-winning author Nava Semel. "In this book she has created a menu of encouraging possibilities on how to overcome our fears and dig deep into our souls, so that our true voice can emerge."

Playful Parenting Lawrence J. Cohen 2008-11-19 Parents have heard that play is a child's work—but play is not for kids only. As psychologist Lawrence J. Cohen, Ph.D., demonstrates in this delightful new book, play can be the basis for an innovative and rewarding approach to parenting. From eliciting a giggle during baby's first game of peek-a-boo to cracking jokes with a teenager while hanging out at the mall, *Playful Parenting* is a complete guide to using play to raise strong, confident children. Have you ever stepped back to watch what really goes on when your children play? As Dr. Cohen points out, play is children's complex and fluid way of exploring the world, communicating hard-to-express feelings, getting close to those they care about, working through stressful situations, and simply blowing off steam. That's why "playful parenting" is so important and so successful in building strong, close bonds between parents and children. Through play we join our kids in their world. We help them express and understand deep emotions, foster connection, aid the process of emotional healing—and have a great time ourselves while we're at it. Anyone can be a playful parent—all it takes is a sense of adventure and a willingness to let down your guard and try something new. After identifying why it can be hard for adults to play, Dr. Cohen discusses how to get down on the floor and join children on their own terms. He covers games, activities, and playful interactions that parents can enjoy with children of all ages, whether it's gazing deep into a baby's eyes, playing chase with a toddler, fantasy play with a grade schooler, or reducing a totally cool teenager to helpless laughter. *Playful Parenting* also includes illuminating chapters on how to use play to build a child's confidence and self-esteem, how to play through sibling rivalry, and how play can become a part of loving discipline. Written with love and humor, brimming with good advice and revealing anecdotes, and grounded in the latest research, *Playful Parenting* will make you laugh even as it makes you wise in the ways of being a happy, effective, enthusiastic parent.

Running with the Fairies Dennis Gaffin 2012-04-25 *Running with the Fairies: Towards a Transpersonal Anthropology of Religion* is a unique account of the living spirituality and mysticism of fairyfolk in Ireland. Fairyfolk are fairyminded people who have had direct experiences with the divine energy and appearance of fairies, and fairypeople, who additionally know that they have been reincarnated from the Fairy Realm. While fairies have been folklore, superstition, or fantasy for most children and adults, now for the first time in a scholarly work, highly educated persons speak frankly about their religious/spiritual experiences, journeys, and transformations in connection with these angel-like spirit beings. Set in academic and popular historical perspectives, this first scholarly account of the Fairy Faith for over a hundred years, since believer Evans-Wentz's 1911 published doctoral dissertation *The Fairy-Faith in Celtic Countries*, integrates a participatory, "going native" anthropology with transpersonal

psychology. Providing extensive verbatim interviews and discussions, this path-breaking work recognizes the reality of nature spirit beings in a Western context. Through intensive on-site fieldwork, the PhD cultural anthropologist author discovers, describes and interviews authentic mystics aligned with these intermediary deific beings. With an extensive introduction placing fairies in the context of the anthropology of religion, animism, mysticism, and consciousness, this daring ethnography considers notions of "belief", "perception", and spiritual "experience", and with intricate detail extends the focus of anthropological research on spirit beings which previously have been considered as locally real only in indigenous and Eastern cultures.

Experimental Film and Photochemical Practices Kim Knowles 2020-09-29 This book assesses the contemporary status of photochemical film practice against a backdrop of technological transition and obsolescence. It argues for the continued relevance of material engagement for opening up alternative ways of seeing and sensing the world. Questioning narratives of replacement and notions of fetishism and nostalgia, the book sketches out the contours of a photochemical renaissance driven by collective passion, creative resistance and artistic reinvention. Celluloid processes continue to play a key role in the evolution of experimental film aesthetics and this book takes a personal journey into the work of several key contemporary film artists. It provides fresh insight into the communities and infrastructures that sustain this vibrant field and mobilises a wide range of theoretical perspectives drawn from media archaeology, new materialism, ecocriticism and social ecology.

The English Academy Review 2003

Western Subjects Kathleen Boardman 2004 "What, if anything, is western about western American autobiography? The essays in this anthology explore the idea of place as it is revealed in a variety of texts rooted in the West - from a bestselling memoir that connects environmental disruption with the impact of disease on a family, to a Paiute woman's personal history presented in defense of her public activities, to a famous folksinger's "novel" of his life. Whether studying writers such as Terry Tempest Williams, William Kittredge, and Woody Guthrie or lesser known men and women whose autobiographies are grounded in western America, this thorough volume of criticism and scholarship seeks to understand the ways the West takes shape in "lifewriting" as landscape, language, or state of mind."--BOOK JACKET. *Autobiography, Genius, and the American West* Cathryn Luanne Halverson 1997

**Playing House in the American West** Cathryn Halverson 2013-11-26 Examining an eclectic group of western women's autobiographical texts—canonical and otherwise—Playing House in the American West argues for a distinct regional literary tradition characterized by strategic representations of unconventional domestic life. The controlling metaphor Cathryn Halverson uses in her engrossing study is “playing house.” From Caroline Kirkland and Laura Ingalls Wilder to Willa Cather and Marilynne Robinson, from the mid-nineteenth to the late-twentieth centuries, western authors have persistently embraced wayward or eccentric housekeeping to prove a woman's difference from western neighbors and eastern readers alike. The readings in Playing House investigate the surprising textual ends to which westerners turn the familiar terrain of the home: evaluating community; arguing for different conceptions of race and class; and perhaps most especially, resisting traditional gender roles. Western women writers, Halverson argues, render the home as a stage for autonomy, resistance, and imagination rather than as a site of sacrifice and obligation. The western women examined in Playing House in the American West are promoted and read as representatives of a region, as insiders offering views of distant and intriguing ways of life, even as they conceive of themselves as outsiders. By playing with domestic conventions, they recast the region they describe, portraying the West as a place that fosters female agency, individuality, and subjectivity.

**Rețete de jocuri. De ce și cum să te joci cu copilul tău**

Lawrence J. Cohen 2013-06-27 „Rețete de jocuri“ a fost laureată cu Medalia de aur a NAPPA (National Parenting Publications Awards) în anul 2001. Mulți dintre noi considerăm că parentajul ține numai de teme pentru acasă, de chestiunile organizatorice și de antrenamentele de fotbal și nu găsim prea multă bucurie în legăturile noastre de familie. În această carte, Lawrence Cohen îi încurajează pe părinți să lase „seriozitatea“ deoparte, pentru a-și regăsi copilul, și apoi demonstrează concret cum se poate face acest lucru. Potrivit autorului, copiii de toate vârstele au permanent nevoie de legături apropiate, de sentimentul siguranței și de atașament, iar interacțiunea prin joc cu părinții lor este o cale importată de dezvoltarea legăturii de acest fel. Cuprins: Mulțumiri Prefață Capitolul 1. Valoarea jocului în conduita părintelui De ce se joacă copiii? The Singing Creek Where the Willows Grow Opal Whiteley 1995-02-01 Long before environmental consciousness became popular, a young nature writer named Opal Whiteley captured America's heart. Opal's childhood diary, published in 1902, became an immediate bestseller, one of the most talked-about books of its time. Wistful, funny, and wise, it was described by an admirer as "the revelation of the ...life of a feminine Peter Pan of the Oregon wilderness—so innocent, so intimate, so haunting, that I should not know where in all literature to look for a counterpart." But the diary soon fell into disgrace. Condemning it as an adult-written hoax, skeptics stirred a scandal that drove the book into obscurity and shattered the frail spirit of its author. Discovering the diary by chance, bestselling author Benjamin Hoff set out to solve the longstanding mystery of its origin. His biography of Opal that accompanies the diary provides fascinating proof that the document is indeed authentic—the work of a magically gifted child, America's forgotten interpreter of nature.
